THE SITE PLAN

Version 1

Home (REQUIRED)

- URL structure: $BASE_URL
- Feature is Map that jumps off to State Detail, Candidate Detail, or Topic Detail Pages
- What is the priority? What order to develop? What should it highlight?
- If Blog/News pages, then display the most recent post.

State Landing

- URL structure: $BASE_URL/states/
- Defaults to list of states if not developed yet
- Depends on State Detail page and Home Page
- **Focus overview of states. Is this redundant with the map?**

State Detail

- URL structure: $BASE_URL/states/$STATE_ABBR/
- Has summary info of a state
- Depends on Home Page

Metro Detail

- URL structure: $BASE_URL/states/$STATE_ABBR/$METRO_SLUG
- Depends on State Detail page and Home Page
- Summary info of a metro area

Candidate Landing

- URL structure: $BASE_URL/candidates/ ? $BASE_URL/politicians/ ?
- Defaults to list of candidates if not developed yet
- Depends on Candidate Detail page and Home Page

Candidate Detail (REQUIRED)

- URL structure: $BASE_URL/candidates/$CANDIDATE_NAME_SLUG
- Has summary info of candidate - based off of template with gauges as discussed on 07/13
    - Links to Candidate accts?
    - Links to Candidate websites?
- Depends on Home Page

Topic Landing

- URL structure: $BASE_URL/issues/
- Defaults to list, but could be some sort of word cloud

Topic Detail (REQUIRED)

- URL structure: $BASE_URL/issues/$TOPIC_SLUG
- Has summary info of topic
    - Which candidate finds it most important?
    - What geo area finds it most important?
    - Where is it gaining popularity? Where is it losing popularity?
- Depends on Home Page

Misc/ Flat Pages (REQUIRED)

Contact Page

- URL Structure: $BASE_URL/contact

About Page

- URL Structure: $BASE_URL/about

Blog/ News Landing

- Blurbs about the most recent blog posts / news about the site.
- Built any number of dozens of Django apps that do blog stuff well
- Depends on Blog/News Detail
- Comments? We said no, because we are not a democracy.
  Blog/ News Detail
    - Full Posts
    - Depends on Blog Landing Page

OTHER FEATURES:

- Share links Module (REQUIRED)
    - On every page to make sharing content easier.
    - Which ones are priorities? Twitter, Facebook, G+, Linkedin? (Let's not make this a garbage dump.)
- User feedback Module
    - Comb twitter for our URLs, filter and post comments / chatter to the respective page that the the Tweet is about.
